Paris announces the continuation of violent artillery fighting in the region of Hailles, southeast of Amlens.

Aside from the artillery actions, Haig reports the repulse of a German raid in the Arras region. The French repulsed raids near Mesnil St. Georges, above Montdidier. Below Canny-sur-Matz, southeast of Montdidler, the French entered the German lines at two points and brought back forty prisoners. South of the Oise River German raids were repulsed.

Following is the text of to-day's London War Office report: "A hostile raiding party was repulsed last night in the neigh-

borhood of Moyenneville, south of Arras.

"There was great artillery activity on both sides during the night in the Pacaut Wood sector north of Hinges. Hostile artillery also has shown increased activity between Locon and Hinges and from the Forest of Nieppe to Meteren."
